VY READY FOR WILSON'S CALL TO MEET ISSUE WITH BERLIN

German intrigues against this country constitute the last straw I that war between Germany and America is inevitable.

J. S. READY TO ARM AMERICAN . SHIPS AT ORDER OF PRESIDENT

WASHINGTON, March 2 .- Arrangements to put into effect the policy of armed neutrality" against Germany await the word of President Wilson. The lans of the navy are complete. Within half an hour after the order is issued o arm American merchantmen the Atlantic yards of the department will be

Administration leaders in Congress were working overtime to expedite the egislation demanded by the Chief Executive.

Passage of the armed neutrality measure in the House, with modification ut with only thirteen members opposed, presaged a support of President Wilson which surprised even the leaders.

The bill, however, is distasteful in its present form to the Administration. Hence, when it reaches the Senate, the Senate measure will be substituted.

PLOT SPURS CONGRESS TO QUICK ACTION

If both houses agree-and they doubtless will under the spur of the German-Mexican-Japan plot-Wilson will be authorized to use instrumentalities other than guns, gunners and money to cope with the grisis; and the House provision egainst Federal war-risk insurance of munition ships will be stricken out.

The legislation is to be engrossed as soon as finally approved by both houses and will immediately be signed. Shortly thereafter the orders to arm American ships will issue from the White House. Then the issue will again be passed directly to Germany.

What additional steps besides furnishing guns, ammunition and experienced gunners will be taken is known only to the President and his advisers. They have worked out all their plans behind the curtain of absolutely necessary secrecy. But it is known that nothing has been left undone to safeguard the interests of the United States at home and abroad.

PRESIDENT READY TO HANDLE SITUATION

The fact that the White House confidently announces that there will be no extra session of Congress "at this time" indicates that the President believes he can handle all expected developments. The work of general preparedness has been greatly simplified by the passage of the new revenue bill, which furnishes the sinews of war for all of the national defense program.

So far as the German plot to involve the United States in war with Japan and Mexico is concerned, it was stated at the State Department today that there was nothing to add to Secretary Lansing's letter to the Senate, which confirmed the authenticity of the Zimmermann letter to the German Minister at Mexico City. The Administration, it was explained, is not desirous at the present moment of permitting details of German anti-American plotting to become public. It may be that further revelations can be made, Secretary Lansing said, but for the present it would be unwise to add anything to the plot details already known.

MEXICO, CUBA AND COSTA RICA WERE FIELDS OF GERMAN PLOTTING

collars have been sent to the de facto Government of Mexico recently by Germans in the United States, it was learned on high United States. evernment authority today.

Some of these millions were in the form of 'personal loans' to Mexico. Other mil-lions went, into the purchase of smelter plants wherever available in Carranga's re-

The money was sent in spite of warning by the United States Government that such "Joans" would not have the support of this Government unless all details of the arrangements between the lending parties a Carranza met with the approval of the United States.

This was one of the countless developments which began coming to light today following official disclosure by President Wilson and Secretary Lansing of a carefully planned plot to unite Mexico and Japan with the Imperial German Government in

war on the United States. It was definitely established that full instructions to German consuls in the United States were sent to von Bernstorff at the

These instructions covered the handling of pending business and directed further antling of German ships in American harbors in event of a break in relations. They covered also the matter of instruc-tions to be left by consuls with special agents when the consuls left this country The scope of the orders to the consuls is understood to be broad and in many re-

All go to show, it is officially declared. after March

the United States to prevent a widening of the present breach.

Foreign Secretary Zimmermann made this assertion in the Reichstag in the course of his discussion of the efforts of the Swiss Minister at Washington to bring the two

"Obviously our wish to come to an under-

Secretary Zimmermann first detailed to the Reichstag the negotiations attempted by the Swiss Minister at Washington.

SWISS ENVOY'S OFFER

United States, the underlying facts are these," he said. "On February 28 we re-ceived by the good offices of the Swiss Fed-eral Council a telegram of the Swiss Min-

ister at Washington, who, after the breaking off of relations with the United States, rep-resents our interests there. The telegram had the following contents: 'If the German

Government would now show inclination to negotiate with the United States about the blockade then he (the Swiss Minister) would gladly be willing to take further care

"All the speakers yesterday declared that

e breaking off of relations with the nited States was regrettable. No doubt would be still more regrettable if there

ould be war with the United States. Be-

would be war with the United States. Between both countries there exists the old
friendly relations. There is no political
antagonism between the countries and in
the economic domain they more or less depend on each other. One could even say
that they ought to be economic allies; therefore, it is easy to understand that the Government took care to avoid everything
which might intensify the conflict and cause
war with America. From the standpoint
of these considerations we examined the
suggestion.

"From the very outset we were absolutely extain that our part in the submarine war night in no way to be limited by concession. Obvieuely our wish to come to an inderstanding with America only can be accomplished so far that we do not conflict with our declaration of barred zones which he are firmly decided to maintain against air enemies under all circumstances.

"Only after long consideration we decided."

of our negotiations with America

a honest, aincare peace offer and the
rebuke by our enomies. To our atour adversafies opposed their will
hilate and thus nothing was left us
take the last and best weapon.

The we took this decision obviously no
urd step was any longer possible.

NEUTRALS TO SUFFER

"In the affair of our negotiations with the

nations into agreement.

of this affair.'

WASHINGTON, March 2 .- Millions of | that while at peace with this Government

It is a fact that evidence of established German propaganda has been found in the revolutions both in Cuba and Costa Rica. Within the last few weeks President Gonzales, of Costa Rica, has conferred with Secretary Lansing and President Wilson re-garding the situation in his country, now ruled by a de facto head with Gonzales temporarily in exile.

Shortly after Gonzales's meeting with offi-cials here, it was pointed out the State De-partment announced the de facto Govern-ment of Costa Rica would not be recognized by the United States.

Immediately afterward the de facto head of Costa Rica announced boldly that he did not need or care for the support of the United States. Officials here intimate strongly the de

facto head of that Latin-American republic is probably otherwise cared for. Evidence of Teuton propaganda in other Latin-American countries is also being care-

fully investigated.

In this connection some concern is felt here over reatlessness that has sprung up in Colombia, because of the indefinite postp ment of the Colombian-American treaty. This is believed to have moved President Wilson recently in urging action on the

Senator Stone, chairman of the Foreign Relations Committee, will rush action on the treaty during the extra Senate session

BERLIN, March 2.—Germany will not back down. Maintenance of her new submarine policy must be a fixed condition beships. The Swiss Minister at Washington transmitted our communications and thereupon received from Mr. Lansing a note in very polite terms. Lansing says he is authorized by President Wilson to say that the Government of the United States will negotiate with Germany very gladly if Germany can cease her decision of January 21. This being absolutely impossible, the negotiations had to be considered a failure before they really had been begun."

standing only can be accomplished so far that we do not conflict with our declaration of barred zones which we are firmly decided to maintain against our enemies under all direumstances," the Foreign Secretary de-The Reichstag sessions adjourned today The Reienstag seasons adjourned today until March 20. Preliminary work of the Parliament has been disposed of. Announcement prior to the closing made pullic the fact that in Berlin alone so far, a quarter of a billion marks (\$50,000,000) had been expended in aiding soldiers' families.

Berlin newspapers were filled today with appeals in their campaign for enlistment in the voluntary civil war service. Com-pulsory service in this branch becomes ef-

THREE NEWSPAPER MEN INDICTED

NEW YORK, March 2.—The redecal Grand Jury, which has spent five days prob-ing the alleged spy plot by which Ameri-can newspaper correspondents were sent to England as "observers," this afternoon indicted George Vaux Bacon, Albert A. Sander and Charles W. Wunenburg.

The charge against the men was launch-ing a military enterprise for a foreign Government on United States soil. The indictments charged that Sander

and Wunenberg sent spies to Great Britain and Ireland to obtain information for military authorities in Germany, particularly to discover sailing times of merchant ships and to collect information regarding eco-

It is charged the two men under arrest side Bacon, here obtained passports for Bacon, furnished him with addresses of persons to observation.

FOUR YARROWDALE MEN REACH COPENHAGEN

LONDON, March Dr. H. B. Snyder, of Norfolk, Va.; Dr. John Davis, of Columbus, Miss.; Richard Zabriskie, of Englewood, N. J. and Orville McKim, of Watertown, N. Y., the four Americans from the steamship Yarrowdale who were released by the German Govern-ment, reached Copenhagen today. They appealed to the United States Legation for esistance in getting home.

Officials here expressed the hope today that the release of four American Yarrow-dale prisoners will at least offer proof that Entente charges that Germany is seeking deliberately to provoke war with the United States are unfounded.

The other Americans from the Yarrow-dale will be set at liberty when the quar-antine period expires at the camp where they are now detained. The four en route to Denmark were classed as officers and held in another camp.

There is little hope that the departure of the Yarrowdale men will do any more than slightly decrease the tension between the two countries. But, efficials said today, their arrival in Denmark will at least dispet the belief existing in some quarters America that a so-called "militarist" pa Germany is guiding the country's tinies. Had Germany desired war with the United States it was pointed out, she she would have delayed the release of the Yarrowdale men, by one pretext or other, until public sentiment in the United States secame more inflamed.

Now that the Laconia sinking has passed without a declaration of war by the United States, official circles here are awaiting the ection of the United States Congress President Wilson's request for authority to arm ships. [The result of the House vote mpowering the President to act had not reached Berlin when this dispatch was lied.] The German press almost unanimously agrees that the arming of American

U. S. PROBING ACTIVITY OF GERMANS IN MEXICO

EL PASO, Tex., March 2

United States Government agents are directing their attention toward German activity in the Tampico oil district Mexico where the oil supply for the British navy is obtained. It is feared the Germans will attempt to influence the Mexicans to cut off this supply. The recent uprising of Felix Diaz's followers in the Tampico district and in the States of Nuevo Leon and Taupaulipas is attributed to German

At least ten German army officers are the service of General Francisco Murguia, Carranga commander of the division of the north, according to information obtained by United States Government agents here. One of the officers is quartermaster general at Juarez. In other Carranza divisions many Germans are in Mexican serv-ice, among them the chief of staff to Governor General Gabriel Gavira, of the State of Durango

Government advices are that anti-American uprisings in Chihuahua, Torreon and Durango, during the period the American expedition was in Mexico, was caused by German influence. In Torreon a colony of forty Germans are charged with respon destruction of the American consulate last summer. Sixty Germans are said to re-main in Chihuahua and the only mining and smelting plant now operating in north-ern Mexico is being conducted by a German company at Mapimi, Durango.

NAMED IN PLOT TALES

New York police and agents of the United States Department of Justice are said to have had word of German operations as long ago as last June, when investigations of wire-tapping in New York by the police department are said to have stopped efforts to run down the conspiracy.

Police officials are said to have obtained

IN NEW YORK AS GERMAN SPIES NEW YORK, March 2.— The Federal whom he might give the information he collected and supplied film with funds. Bacon formerly was a newspaperman in Gary, Ind., and Cleveland. It is understood British authorities are to return Bacon to this country for trial. The two alleged leaders of the plot, who were arrested when detention of George V.

Bacon, in England, was followed by revela-tions of a spy system, pleaded not guilty and were released on \$5000 bail. They were granted a week in which to file mo-

Seven American reporters, it was charged, were placed in England and Holland and forwarded military information here for relay to Germany. Two of these men, be-side Bacon, are said to be detained, and it is understood others were placed under

information, through listening to telephone conversations, of meetings by conspirators, and have been to all sections of the country

watch for outbreaks. The story of German intrigue as told here involved the deposition of General Carranza and the substitution of General Obregon, Cabrera, or some other Mexican who had a following. The recognition of the Carranza Government by the United States it is said, stopped the plans. Propagandists also are said to have been responsible for stories that General Carranza had forced American troop to evacuate

'CLEAR CRAZY,' ARGENTINE SAYS OF GERMAN PLOT

By CHARLES P. STEWART Special Cable Service of the Evening Leftoer and United Press

BUENOS AIRES, March 2.-Revelations of Germany's plot against America called forth use today of the Argentine catchword "ultimo leco"—freely translatable as "clear crazy"—in describing Germany in newspaper and public comment on the move. Argentine was vastly interested in the attempted German coup first of all because it broked a Latin American remailed and it involved a Latin-American republic and, secondly, because it was a direct attempt by a foreign Power to undermine the Monroe Ductrine.

It was generally believed that the revelation would result in increasing the favorable progress of the move started by Argentine for a conference of Latin-American republics seeking peace in Europe. There were prospects, however, that this would be changed to joint action directed more toward a "quarantine" against war by the republic parties to the scheme. The United States has not been invited to join the plan.

JAPAN AND MEXICO PLAN STATEMENTS ON NOTE

TOKIO, March 2 The idea that Japan might desert the Entente and join Germany in waging war on the United States was characterized as "utterly preposterous" by a high Govern-ment official today. It is reported that the Foreign Office is preparing a formal statement reaffirming Japan's allegiance to the Entente and assuring the United States of

its friendly feeling.
Officials here at first refrained from all comment on the sensational charge of German plotting emanating from Washington because it was contained only in press dis-patches. Later word reached Tokio that the Administration had vouched for the authenticity of the story.

One prominent personage declared his belief that the Zimmermann note was "planted" by Germany. German diplomats, he said, counted upon its discovery to create suspicion against Japan both in America and Entente countries, and to frighten the

Formal disavowal by the Mexican Gov

ernment of any participation in the German plot, and probably denial that the scheme was ever actually broached to the Carranza Government is expected to be issued within the next few days. Probably it will be the first official act of a new Foreign Minister, whose appointment by First Chief Carranza is expected at Guadalajara today.

lajara today.

The general feeling in Mexico is that the
Zimmermann letter cannot be genuine. Both
the Japanese and German Ministers denied
knowledge of the plan. lalara today

WASHINGTON, March 2—Acting under State Department orders Ambassador to Mexico Fletcher will ask General Carranza to make plain to this Government his attitude regarding the German plot to plunge Mexico and Japan into war against this Government. The Washington Government is anxious to ascertain whether the German proposal—even though it did not reach Carranza—is in any way affecting his attitude toward this Government.

U-BOATS TO OPERATE DISGUISED AS SCHOONERS

WASHINGTON, March 2. German submarines disguised as sailing essels plan to prey upon the merchant shipping of the Aliantic Ocean, according to information in the hands of the State Department, it was learned through authoritative sourtes here today. The department, through the customs service, is con-ducting an investigation of reports to the effect that a disguised submarine campaigr

is to be conducted and that a few of the craft already have made their appearance. The plan contemplates the equipment of submarines with false masts and sails. With these the U-boats will sail upon the surface appearing, except upon near scru-tiny, to be inoffensive fishing schooners. Thus disguised, they can approach near enough to vessels without exciting suspici and inviting attack. They then can launch their torpedoes at sure range, and either sail away on the surface or submerge, casting loose the false rigging.

The State Department has evidence re lating to the discovery of one of these ves-sels by a foreign merchantman. The vesel's captain realized, ppon sighting one of the disguised U-boats, that it was moving too rapidly to be under sall power alone Examining it with his glasses, he discovered the true character of the vessel and at-tacked it, sinking the submarine. Details of the encounter are being kept secret for

It is believed here that Germany has hit upon the disguised submarine plan as a means of combating armed merchantmen, which, in the daylime could sink a sub-marine by gunfire before the U-boat could ome close enough to discharge a torpedo with unerring aim

350-FOOT U-BOATS BUILT BY GERMANY

AMSTERDAM, March 2. - The Tele AMSTERDAM, March 2.—The Telegraaf publishes an interview with a German soldier who for some time has been serving as a clerk in the Vulkan shipyard, at Hamburg, where he was sent from the army as a remishment. He preferred to escape across the frontier.

This man left Hamburg late in February. There were then in the Vulkan yards eight large submarines on the stocks. These are the latest type. They are nearly 350 feet long and armed like a small cruiser and can carry twenty tor-

small cruiser and can carry twenty torpeodes and a crew of thirty-two.
Gangs of 120 men are at work day and night on each submarine. The completion of a U-boat of this type requires three months, Besides the submarines small cruisers are now building in the Vulkan dockyard of the new so-called Stadt class. These are 430 feet long.
